FUSRAP 2005 Jul-Sep.pdf

If we don't have the data in our files please request a copy. You may want to do a quick review.

Looks like MDNR took additional samples along the haul roads along WL landfill.

Thanks

Subject: FUSRAP Quarterly Report

Dan,

During historical research of files related to the 2005 FUSRAP Record of Decision for the North St. Louis County Sites referenced in the EPA's recent press release, we noted the attached FUSRAP Quarterly Report (dated July 1 – Sept. 30, 2005). This report summarizes field investigation work along three roadways near West Lake Landfill. This confirmatory sampling was performed in preparation for the review and consideration of the 2005 FUSRAP ROD. Given staff turnover since 2005, we wanted to ensure you were aware of this report. Laboratory results of these samples can be provided upon request.

Please let me know if you have any questions,

Shawn Muenks, P.E.
